

SAFETY DATA SHEET

Piranha™ Liquid Wallpaper & Paste Remover

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification	
Product identifier	
Product name	Piranha™ Liquid Wallpaper & Paste Remover
Recommended use of the che	emical and restrictions on use
Application	Adhesive Remover.
Uses advised against	Use only for intended applications.
Details of the supplier of the s	afety data sheet
Supplier	Roman Decorating Products, LLC 824 State Street Calumet City, IL 60409 United States Tel: 708-891-0770 Fax: 708-891-4746 technicalhelp@romandec.com
Emergency telephone numbe	r
Emergency telephone	Tel: 708-891-0770
2. Hazard(s) identification	
Classification of the substance	e or mixture
OSHA Regulatory Status	This Product is Not Hazardous under the OSHA Hazard Communication Standard.
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Aquatic Acute 3 - H402 Aquatic Chronic 3 - H412
Label elements	
Hazard statements	H412 Harmful to aquatic life with long lasting effects.
Precautionary statements	P273 Avoid release to the environment. P501 Dispose of contents/ container in accordance with national regulations.
Other hazards	
None known.	
3. Composition/information on ingredients	
Mixtures	
Composition comments	None of the ingredients are required to be listed.
4. First-aid measures	

Inhalation Move affected person to fresh air and keep warm and at rest in a position com breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention are severe or persist. Ingestion Rinse mouth thoroughly with water. Get medical advice/attention if you feel uninduce vomiting unless under the direction of medical personnel. Skin Contact It is important to remove the substance from the skin immediately. Remove con with scap and water or recognized skin cleansing agent. In the event of any sey symptoms developing, ensure further exposure is avoided. Get medical attention are severe or persist after washing. Eye contact Remove any contact lenses and open eyelids wide apart. Rinse with water. Get attention if any discomfort continues. Protection of first aiders First aid personnel should wear appropriate protective equipment during any reflects, both acute and delayed General information The severity of the symptoms described will vary dependent on the concentrat length of exposure. Inhalation No specific symptoms known. Ingestion No specific symptoms known. May cause discomfort if swallowed. Skin contact May be slightly irritating to skin. The product contains a small amount of sensit substance. May cause skin sensitization or allergic reactions in sensitive indivi Eye contact Prolonged or repeated exposure may cause the following adverse effects: Pair indication of immediate medical attention and special treatment needed Notes for the doctor Treat symptomatically.<	cription of filst ald measures	
breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention are severe or persist. Ingestion Rinse mouth thoroughly with water. containing and keeping it out of sewers and watercourses. If risk of water pollu notify appropriate authorities.	ighting wa ex wa cc	void breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with vater spray and remove them from the fire area if it can be done without risk. Cool containers xposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use vater spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, otify appropriate authorities.

Description of first aid measures

Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.
6. Accidental release measure	15
Personal precautions, protecti	ve equipment and emergency procedures
Personal precautions	Evacuate area. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid contact with skin, eyes and clothing. Avoid inhalation of vapors. Do not touch or walk into spilled material.
Environmental precautions	
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground.
Methods and material for cont	ainment and cleaning up
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Wipe up with an absorbent cloth and dispose of waste safely. Large Spillages: Contain and absorb spillage with sand, earth or other non-combustible material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. The contaminated absorbent may pose the same hazard as the spilled material. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.
7. Handling and storage	
Precautions for safe handling	
Usage precautions	Read and follow manufacturer's recommendations. Do not handle until all safety precautions have been read and understood. Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Wear protective clothing as described in Section 8 of this safety data sheet. Avoid contact with skin, eyes and clothing. Use only in well-ventilated areas. Use only when the room temperature is above: 60-70 °F. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. Do not handle broken packages without protective equipment. Do not reuse empty containers.
Advice on general occupational hygiene	Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.
Conditions for safe storage, in	cluding any incompatibilities
Storage precautions	Store away from incompatible materials (see Section 10). Keep out of the reach of children. Keep away from food, drink and animal feeding stuffs. Store in tightly-closed, original container in a dry and cool place. Do not freeze. Keep containers upright. Protect containers from damage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.
8. Exposure controls/Persona	I protection
Ingredient comments	The product contains no substances classified as hazardous to health by an OEL value in concentrations which should be taken into account.

Exposure controls	
Appropriate engineering controls	Provide adequate ventilation.
Eye/face protection	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Wear chemical splash goggles. Personal protective equipment for eye and face protection should comply with OSHA 1910.133.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and be demonstrated to be impervious to the chemical and resist degradation. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected.
Other skin and body protection	Wear appropriate clothing to prevent skin contamination.
Hygiene measures	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse.
Respiratory protection	No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is inadequate, suitable respiratory protection must be worn. Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved.
Environmental exposure controls	Keep container tightly sealed when not in use. Avoid release to the environment.

9. Physical and chemical properties

Information on basic physical and chemical properties

F.,	
Appearance	Liquid.
Color	Clear.
Odor	Fresh.
Odor threshold	No data available.
рН	7.0
Melting point	0°C/32°F
Initial boiling point and range	100°C/212°F
Flash point	No data available.
Evaporation rate	No data available.
Flammability (solid, gas)	No data available.
Upper/lower flammability or explosive limits	No data available.
Vapor pressure	No data available.
Vapor density	No data available.
Relative density	1.0
Solubility(ies)	Miscible with water.

Partition coefficient	No data available.
Auto-ignition temperature	No data available.
Decomposition Temperature	No data available.
Viscosity	2500 cP
Explosive properties	No data available.
Oxidizing properties	No data available.
Volatile organic compound	0.36%
10. Stability and reactivity	
Reactivity	See the other subsections of this section for further details.
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
Possibility of hazardous reactions	No potentially hazardous reactions known.
Conditions to avoid	Avoid freezing. Avoid exposure to high temperatures or direct sunlight.
Materials to avoid	Do not mix with other chemicals. Avoid contact with acids and alkalis.
Hazardous decomposition products	Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors. Oxides of carbon. Oxides of nitrogen.
11. Toxicological information	
Information on toxicological ef	fects
Acute toxicity - oral	
Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - dermal Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation	

Notes (inhalation LC₅₀) Based on available data the classification criteria are not met.

Based on available data the classification criteria are not met.

Serious eye damage/irritation Serious eye damage/irritation Based on available data the classification criteria are not met.

Respiratory sensitizationBased on available data the classification criteria are not met.

 Skin sensitization
 The product contains a small amount of sensitizing substance. May cause skin sensitization or allergic reactions in sensitive individuals.

Skin sensitization Based on available data the classification criteria are not met.

Germ cell mutagenicity

Skin corrosion/irritation

Animal data

Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity	
Carcinogenicity	Based on available data the classification criteria are not met.
IARC carcinogenicity	Contains a substance/a group of substances which may cause cancer. IARC Group 1 Carcinogenic to humans.
Reproductive toxicity	
Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity - s	single exposure
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.
Specific target organ toxicity - r	epeated exposure
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.
Aspiration hazard	
Aspiration hazard	Based on available data the classification criteria are not met.
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known. May cause discomfort if swallowed.
Skin Contact	May be slightly irritating to skin. The product contains a small amount of sensitizing substance. May cause skin sensitization or allergic reactions in sensitive individuals.
Eye contact	Prolonged or repeated exposure may cause the following adverse effects: Pain or irritation.
Route of exposure	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.
Medical considerations	Skin disorders and allergies.
12. Ecological information	
Taxialt	
Toxicity	Harmful to aquatic life with long lasting effects.
Persistence and degradability	
Persistence and degradability	The degradability of the product is not known.
Bioaccumulative potential	
Bio-Accumulative Potential	No data available on bioaccumulation.
Partition coefficient	No data available.
Mobility in soil	
Mobility	The product is water-soluble and may spread in water systems.
Other adverse effects	
Other adverse effects	None known.
13 Disposal considerations	

Waste treatment methods

Waste deadlicht methods	
General information	The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods	Do not empty into drains. Dispose of contents/container in accordance with national regulations.
14. Transport information	
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT).
UN Number	
UN No. (International)	Not applicable.
UN No. (DOT)	Not applicable.
UN proper shipping name	
Proper shipping name (International)	Not applicable.
Proper shipping name (DOT)	Not applicable.
Transport hazard class(es)	
Transport Labels (International)	No transport warning sign required.
DOT transport labels No transport warning sign requ	uired.
Packing group	
Packing group (International)	Not applicable.
DOT packing group	Not applicable.
Environmental hazards	
Environmentally Hazardous Se No.	ubstance
Special precautions for user	
Not applicable.	
DOT reportable quantity	Not applicable.
DOT TIH Zone	Not applicable.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.
15. Regulatory information

Methyloxirane Final CERCLA RQ: 100(45.4) pounds (Kilograms)

Ethylene oxide Final CERCLA RQ: 10(4.54) pounds (Kilograms)

1,4-dioxane Final CERCLA RQ: 100(45.4) pounds (Kilograms)

SARA Extremely Hazardous Substances EPCRA Reportable Quantities

None of the ingredients are listed.

SARA 313 Emission Reporting

The following ingredients are listed:

Methyloxirane 0.1 % Ethylene oxide 0.1 % 1,4-dioxane

0.1 %

CAA Accidental Release Prevention

The following ingredients are listed:

Methyloxirane Threshold Quantity: 10000 lbs

Ethylene oxide Threshold Quantity: 10000 lbs

OSHA Highly Hazardous Chemicals

The following ingredients are listed:

Ethylene oxide Threshold Quantity: 5000 lbs

US State Regulations

California Proposition 65 Carcinogens and Reproductive Toxins The following ingredients are listed:

Methyloxirane Carcinogen.

Ethylene oxide Carcinogen, developmental toxin and reproductive toxin.

1,4-dioxane Carcinogen.

California Air Toxics "Hot Spots" (A-I)

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

California Air Toxics "Hot Spots" (A-II)

None of the ingredients are listed.

California Directors List of Hazardous Substances

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

Massachusetts "Right To Know" List

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

Proprietary alcohol

Rhode Island "Right To Know" List

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

Minnesota "Right To Know" List

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

Proprietary alcohol

New Jersey "Right To Know" List

The following ingredients are listed:

Methyloxirane Ethylene oxide

1,4-dioxane

Sulphamic acid

Pennsylvania "Right To Know" List

The following ingredients are listed:

Methyloxirane

Ethylene oxide

1,4-dioxane

Proprietary alcohol

Inventories

US - TSCA All the ingredients are listed or exempt.

US - TSCA 12(b) Export Notification

None of the ingredients are listed or exempt.

16. Other information	
Abbreviations and acronyms used in the safety data sheet	ATE: Acute Toxicity Estimate. IATA: International Air Transport Association. ICAO-TI: Technical Instructions for the Safe Transport of Dangerous Goods by Air. IMDG: International Maritime Dangerous Goods. LC ₅₀ : Lethal Concentration to 50 % of a test population. LD ₅₀ : Lethal Dose to 50% of a test population (Median Lethal Dose). PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative. MARPOL 73/78: International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. BCF: Bioconcentration Factor. EC ₅₀ : 50% of maximal Effective Concentration. NOEC: No Observed Effect Concentration. NOAEL: No Observed Adverse Effect Level.
Training advice	Read and follow manufacturer's recommendations.
Revision comments	This is the first issue.
Revision date	8/9/2018
